

Reviewer Appreciation

I express our gratitude to the reviewers for the publication of this KONA Powder and Particle Journal. Thanks to the generous contributions of the volunteer reviewers as well as the interest of researchers in our journal, the number of submission to this journal is increasing after the registration on the major international journal platforms and its level is further improving. Because of the limited space of this annual journal, the number of papers published there is regrettably rather restricted. Therefore the papers of good quality need to be selected for the journal and further improved and refined by the reviewing.

The editorial team of KONA Journal would like to take this opportunity to gratefully acknowledge the reviewers here and deeply appreciate their valuable time and professional contributions to the KONA Journal. We apologize to any reviewer who may have inadvertently been omitted from this list. We are sincerely grateful to all who have been of any assistance to the publication of this journal.
